

## **Conclusion Note**

1. Hya project made mi vegle vegle experiment karun bagitle jas ki manifold banavnya sati equal air distribution.
2. Aeration sati vegle vegle design chi manifold apply karun bagitle.
3. Aeration mule without aero tube Buble Ani with aero tube bubble ch experiment karun bagitle hyatun je results bhetle te manache virudhh hote Kiva expect Kel hota tase navte bhetle.
4. Aeration Vartich dusri setup lavun 1000 liter pani made aerotube bubbling Kel Ani without bubbling setup chi experiment made havease hot results milale ajun ekda experiment karun Baga.
5. Suggest kelela design made COD drop hoto Kami velet.
